Cautionary Note

Some of the information in this book is hard-core. It's explicit. It's of an extremely adult nature (and is not intended for anyone under 18 years of age).

It may challenge your sexual beliefs about women and what you thought was the truth. At first you may think that some of the phrases in this book are too extreme, too much, far more than any woman could possibly want to hear.

But I encourage you to read with an open mind because this book contains the types of things that women absolutely LOVE hearing from their men in the bedroom (but would never ask them to say).

I'd go so far as to say that mastering dirty talk could be the single most important thing you will ever do as far as SATISFYING your WOMAN in the bedroom goes.

This book will help you **master dirty talk**.

About the Author

Adam Armstrong is a sex coach.

He specialises in teaching men how to become better lovers. The reason why he is able to do this so effectively is because he spent years figuring out why most men are clueless when it comes to women and why so many women are dissatisfied in bed with their men.

It wasn't easy to work all of this stuff out, largely because the mainstream sex advice to be found in magazines (both those aimed at men and women), on television and on the internet proved to be mostly inadequate. And the stuff in so called "scientific literature" was often no better.

It seemed that most so called "sex experts" skirted around the real issues for fear of offending people, or simply because they did not really know what women wanted, needed and craved in the bedroom and much less how to teach men the skills required to become dynamite with women.

Luckily for you, Adam has this stuff figured out.

He is not afraid to speak his mind and at times uses some, how shall we say; colourful language! He might challenge your beliefs and seriously make you question much of what you previously thought was true about female sexuality.

But if you go with it and read, listen and watch Adam's programs with an open mind - you will become a better lover than you ever dreamed possible.

Simply by reading this one special report you will learn more about dirty talk and how to blow your woman's mind with your voice than most men will learn in a lifetime.

Dirty Talk.

Most men are familiar with the term 'dirty talk,' but the fact is that very few men *really* know what it is and even fewer know how to use it to increase their woman's sexual pleasure.

That fact is a great shame because **dirty talk is probably a man's most powerful 'tool' in the bedroom.** Take a second to re-read that last sentence - it's kinda important.

Luckily for you - you're in the right place to learn more about this incredible sexual technique.

The truth is that this book isn't meant to be *everything* there is to know about dirty talk, but rather a simple guide to the basics - the stuff you absolutely **NEED** to know if you are going to become successful at dirty talk.

Make no mistake about it... dirty talk is the most underused sexual technique there is... it's so damn powerful, you just have to put what's in this book into action and you'll see for yourself..

Here's a brief overview of what you're going to discover:

- Why women love dirty talk and why it's virtually impossible to have great sex without talking dirty
- Female opinions on dirty talk
- Why most men don't talk dirty
- 5 rules for successful dirty talk
- 12 proven dirty talk phrases your woman will love
- 1 secret dirty talk line that'll make her orgasm over and over again

Ready to get started?

Excellent.

Then let's get straight into the good stuff...

Why Women Love Dirty Talk...

Sex is a purely physical act, *right?*

It's just about two (or more) bodies moving together and 'getting each other off', *right?*

It's all about penises and vaginas, *right?*

WRONG.

The reality is that that is how most MEN view sex. But such men will never be great lovers. Allow me to explain why...

You see, the truth is that **for women, sex is a very mental experience.**

This means that if you want to give your woman incredible sex - the kind that'll make her *literally addicted to you* - you have to stimulate your woman's MIND in the bedroom.

The question is:

“How do you stimulate your woman’s mind in the bedroom?”

The answer is simple...

With dirty talk.

So the reason WHY women love dirty talk (when it’s done well) is because it stimulates their minds. Therefore – to become a great lover – you have to become great at stimulating your woman’s body and her mind...

Of the two, *the mind is easily the most important...*

For proof – consider the fact that **it is entirely possible to teach a woman to have an orgasm without any physical stimulation whatsoever, using only the power of your voice.** In case you’re wondering – the orgasms without any touching are usually more powerful than orgasms with physical touching.

But let’s not get ahead of ourselves.

Orgasms without touching – or ‘Mindgasms’ as they are sometimes referred too – are an advanced technique and a topic for another day.

What you’ll find in the remainder of this book are the fundamentals required for successful dirty talk – the kind of dirty talk that *instantly* increases your woman’s pleasure.

Recap: Women love dirty talk because it provides them with the mental stimulation that they require in order to have truly great sex

Female Opinions On Dirty Talk...

In this section you are going to see a few different female perspectives on dirty talk. These perspectives really reinforce the importance of dirty talk...

This first quote comes from an ex-girlfriend of mine who I dated back in 2010:

“For the sex to be amazing, a guy has to fuck my mind as well as my body”

That just about sums it up – dirty talk is *that* important.

Here’s a snippet of a conversation I had with a woman in 2012, whilst I was training at the gym:

Me: *“What do like a man to do to you in the bedroom?”*

Her: *“I love it when guys talk dirty”* (she blushes and giggles)

Me: *“Ah, very good. Is this something your current man does?”*

Her: *“Unfortunately not. I’ve actually only experienced dirty talk on three separate occasions, but it was super-exciting each and every time”*

Now let me tell you - this woman was in her late twenties, she was smoking hot and I think she was fairly sexually experienced and open minded. She clearly LOVED dirty talk, yet she'd only ever experienced it three times!

Three times in her entire freakin' life!

What does that tell you?

It should tell you two things...

1. It confirms how exciting dirty talk is for women
2. It confirms that most men *aren't* doing it (HINT: When you start doing it you'll really stand out from all the other guys)

Finally, I'd like to share a conversation I had with my current girlfriend about dirty talk...

Me: *"What do you think of dirty talk?"*

Her: *"It's incredible. It makes the sex so much more exciting"*

Me: *"How would you describe sex without dirty talk?"*

Her: *"That's easy - I'd describe it as boring sex"*

I don't really think I need to say anything about that conversation - it's self-explanatory.

To summarize what these women are saying about dirty talk (and the countless other conversations I've had with women about this sexual technique), here is a...

Recap: Silent sex is lame sex

Why Most Men Don't Talk Dirty...

Given how powerful dirty talk is and how much women LOVE it, the question is:
"Why don't more men do it?"

It's my experience that **there are three primary reasons why most men fail to talk dirty to their women.**

Here they are:

1. Some men fail to talk dirty because they simply don't realize how important the technique is from a female perspective
2. Some men fail to talk dirty because they tried it once and made the woman LAUGH, so now they feel too self-conscious to try again
3. Some men fail to talk dirty because they tried it once and OFFENDED the woman, so now they feel too scared to try again

None of these reasons are good enough to prevent you from learning how to talk dirty like a 'pro' to your woman. And that's the key - you have to learn how to talk dirty.

It's just like any other skill worth having - you usually have to put a little time in before you can say you've mastered it.

I mean think about it...

If you wanted to play golf to a high standard, do you think you'd have to practice? Sure you would. Same goes for any other sport... or learning to play a musical instrument... or learning how to paint, and so on.

You get the idea.

Whatever your situation...

-You may have never tried to talk dirty

Or...

-You may have tried and had less than favourable results in the past

...I want you to know that you *can* learn how to successfully talk dirty and you **MUST** do so if you want to be a great lover - the kind of lover who can give any woman incredible sexual pleasure.

Recap: The past doesn't have to equal the future and you **CAN** learn how to successfully talk dirty - all you have to do is commit to using what you are about to learn...

Even "good girls" love dirty talk. They can't help themselves... that's how women are wired.

5 Rules For Successful Dirty Talk

5 Rules For Successful Dirty Talk...

Okay, so now we're getting into the real 'meat' of this book. This is the 'how to' stuff – the stuff that you need to read and re-read until it's crystal clear in your mind – and then use with your woman in the bedroom.

The 5 rules for successful dirty talk that I'm about to share with you are the five things that I consider *most important* for talking dirty in a way that *instantly* increases your woman's sexual pleasure and never offends her or makes her laugh. Let's get straight into it...

1. Deliver Your Dirty Talk With Confidence

In order for your dirty talk to be successful – you have to be confident as you deliver it.

To clarify...

You can consider *successful* dirty talk to be dirty talk that results in an INCREASE in sexual excitement and pleasure for your woman (and hopefully for you too).

It goes without saying, but I'll say it anyway... dirty talk that makes your woman laugh or offends her can be considered unsuccessful.

Now, back to the CONFIDENCE issue...

You may be wondering how the heck you're supposed to feel confident if you've not had any prior success with dirty talk. And if you are feeling this way – I totally understand your position – it's perfectly natural.

However, this is one of those situations where you have to *fake it* till you make it. There is no other way.

You just have to grow a big pair of balls, take a deep breath and say something that you think your woman is going to respond favorably too. And you have to say it in a way that appears confident (even though you may be nervous as hell on the inside).

This is no different to giving a speech or going for a job interview – you may be nervous as hell, but you try your damn hardest to appear confident.

For your dirty talk to be most effective – and for you to feel and appear confident as you say – try to talk a little DEEPER than normal.

BONUS TIP: On your own, try recording your voice so you know how you sound. Then practice talking in a slightly deeper voice. You might feel silly doing this, but it'll give you confidence when you come to talk dirty 'for real'. And besides - nobody is going to hear your recordings but you - so what have you got to lose?

Here's the bottom line regarding the confidence issue...

Women respond to sexual confidence like Bees do to Honey - they freakin' love it and they can't get enough of it...

Talking dirty on its own is a sign of sexual confidence...

With that said - the truth is that the only way to get 100% confident with dirty talk is to do it over and over again (like, every time you have sex) and as you get better and better and your woman responds more and more favourably - that's when you will develop rock-solid confidence in the 'dirty talk department'.

2. Start Out Gently With Your Dirty Talk

Successful dirty talk isn't just about WHAT you say - WHEN you say it matters too. At the start of a sexual encounter, your dirty talk can be a lot softer than when you are some way through and your woman is at the peak of her sexual excitement.

Said differently - what you say to your woman when she's fully clothed and you are just kissing and cuddling her is going to be *a lot different* to what you say to her when she's having a body-shaking ORGASM.

The reality is that what you say to your woman at the start of a sexual encounter might not even appear that *dirty* at all. I'm simply using the term DIRTY TALK to apply to anything that you say to your woman in a sexual scenario.

Some examples will make what I'm saying crystal clear for you...

When you are kissing your woman and you're both still fully clothed, you may say something like this to her:

"You taste so good baby"

Or...

"I love the way you touch me"

As you can see - neither of these phrases are particularly 'dirty'. They're more SENSUAL than dirty, but they're still great things to say because they will help you to ramp up your woman's sexual excitement much faster than physical actions (like kissing) can do on their own.

Now, as things get more heated and your woman becomes more sexually excited, this is when you can get *dirtier* with your choice of words...

For instance – let’s assume that your woman is naked, but you’ve not yet touched her genitals. In this instance, you may whisper something like this in her ear:

“I can’t wait to taste your wetness”

Or

“I can’t wait to be inside you”

Both of these phrases will likely result in an instantaneous increase in your woman’s sexual excitement (providing you deliver them with confidence and authority).

Phrases like these really *hint* at what’s to come and kind of TEASE your woman.

In case you didn’t know – women freakin’ LOVE sexual teasing. It’s a powerful technique indeed and words are just one way to do it.

Now, as your woman gets even more sexually excited – this is when your dirty talk can become really dirty. In fact, sometimes you end up talking really *nasty* to your woman and if you do it right – she’ll love it...

For instance:

When she’s on all fours and you’re doing her ‘doggie’, try saying:

“You’re my naughty little slut and you love it when I fuck you”

If you’ve never used dirty talk, this may seem like TOO MUCH – but trust me when I tell you – women love dirty talk like this when they are *really* turned on.

Just remember –
**start gently with your dirty talk
and get dirtier as her sexual excitement
builds.**

Also start gently if you are *new* to dirty talk – you don't have to try and go super-hard core straight away... it's much better to experiment slowly, take your time, build your confidence and really take note of what your woman responds too.

3. Use 'Adult' Words When Talking Dirty

This one's *really* important...

For your dirty talk to be successful and exciting for your woman, you have to use SLANG words.

The correct anatomical words may very well be penis, vagina and genitals – but if you use these words during sex – you are likely to make your woman laugh... or have her dry up faster than an oasis in the desert.

For dirty talk – you call your penis your 'cock'...

You call her vagina her 'pussy' or her 'hole'.

When talking dirty, it's also fair game to use some 'swear words'. Your woman will get excited if you say:

"I love fucking you"

Or...

"I'm going to fuck you so hard"

Get it?

Good.

Let's move on...

4. Make Your Dirty Talk Personal To Your Woman

This is a HUGE SECRET for successful dirty talk, so pay close attention...

If you say *this* to your woman as you are having sex with her...

"You're a fucking whore and I love being inside you"

...She'll probably get turned OFF, she might cry, she'll probably feel less emotionally connected to you and she may even give you a slap.

Not cool.

However, assuming you have a very good relationship with your woman and you give her incredible pleasure each and every time you have sex, and you say *this* to her...

"You're my fucking whore and I love being inside you"

...She'll almost certainly get even more aroused.

How do I know this?

Because it's tried-and-tested my friend ;)

Here's what's going on...

In the first example you INSULTED your woman – you made her feel cheap. You made her feel like a *whore*.

However, in the second example you used the word 'my'. This made the statement PERSONAL to your woman. The use of the word 'my' makes it possible to say some really *really* dirty things to a woman and have her respond favourably.

Believe me when I tell you – as you improve your skills as a lover and you become a master of the art of dirty talk, you will scarcely believe just how dirty many women like to be spoken to in the bedroom. Even now – after YEARS of study and experimentation – I sometimes find myself amazed at just how sexual women are and how they like to be spoken too during sex.

Whatever you do – don't forget to use the word 'MY' in order to make the dirty talk personal to your woman.

5. Keep Your Dirty Talk Simple

Guys often email me and say something along the lines of:

"I understand that I should be talking dirty during sex – but I don't know what to say"

Here's my advice...

KEEP IT SIMPLE.

Seriously, **simple works best with dirty talk.**

Very often it's just a case of saying what you SEE or saying what you are THINKING. (NOTE: I'm assuming you are a vigilant lover with a good sense of awareness and that you *aren't* a weirdo who has strange thoughts that will turn women off). Here are some examples...

If you touch your woman's wet vagina and it turns you on, say to her:

"God your wetness makes me so hot for you"

Is it SIMPLE? Yes.

Did you say what you were *thinking*? Yes.

Will it increase your woman's arousal? You bet it will!

Want another example?

Okay, here ya go...

Let's assume you're fingering your woman and you can tell she is right on the edge of an orgasm.

You say:

"You want to come for me don't you?"

She's replies:

"Oh God YES" (as she finishes saying it she immediately starts to orgasm)

As she orgasms, you say:

"Come hard for me baby"

As you can see - these are very simple phrases. One of the reasons why *simple* works best with dirty talk is because 'simple' doesn't break your woman's state. You see, not only will complicated language during dirty talk cause you to get tongue tied - it'll also make your woman have to *think* about what you are saying.

And you don't want her to have to pause and think. You do want your dirty talk to be so easy for her to understand that she INSTANTLY 'gets' what you are saying and her excitement builds accordingly.

So keep your dirty talk simple...

There are no prizes for big, complicated words - only for INCREASED sexual pleasure.

Here's The 1 Secret Dirty Talk Line That'll Make Her Orgasm Over and Over and Over Again...

I bet you thought I'd forgotten...

Forgotten to share the 1 secret dirty talk line that you can use to make your woman orgasm *over and over and over again...*

But I didn't forget.

I just saved the best till last.

Let's get into it...

The 1 secret dirty talk line that you can use to make your woman orgasm multiple times, EVERY time you 'get it on' with her is remarkably simple and it never fails.

Here it is:

“Come for me”

Yep. That right there is the line that you can use to make your woman orgasm repeatedly. And when you make her orgasm repeatedly - MULTIPLE times every time you have sex with her - you can expect the following things to happen:

- **She'll have sex with you *whenever* you like**
- **She'll please you in pretty much ANY way you like**
- **She'll have no interest in other men**

That's just what happens when you give her **multiple orgasms every time**. Right now, you're probably saying to yourself:

“Come on Adam. Those 3 words are just too simple. Do me a favor and share the real secrets with me”

But here's the truth...

The magic is in the **simplicity** of those words...

They're super easy for her to understand...

They make you seem DOMINANT and IN CONTROL because you're telling her what to do (something she'll love)...

And, well, - they just work! Period.

Let me explain exactly how to use those magic words with your woman...

Don't just go up to her in the living room, whilst she's watching TV or reading a book and say:

“Come for me”

If you do that, she'll just think you're weird ;)

The correct way to use those 3 simple, devastatingly powerful words is to wait until she's right on the verge of orgasm - and then use those words to 'tip her over the edge'...

You're basically timing your words with her orgasm.

However, what you'll notice is that the more frequently you do this, the more POWER your words end up having over her..

And once you get to the point where you're giving her MULTIPLE ORGASMS every time - your words will start to 'get her off'...

So at first, wait till she's very close and then say:

“Come for me”

And that's exactly what she'll do.

At the same time, she'll sub-consciously start linking your words to her orgasm.

Then, over time, as you use the words more and more and you give her more and more orgasms - you'll notice that **your words actually start to become the thing that 'gets her off.'**

Of course, there are variations of this dirty talk phrase.

You don't always have to say:

“Come for me”

Here are some variations:

“Come like a good girl”

“Come like a bad girl”

“Come now”

“Come for me baby”

Get it?

They all have the same effect – they tip her ‘over the edge’ and help to make her ORGASM happen. And they are all very simple and very effective.

Don’t over-complicate this – that’s what ‘average lovers’ do. The best lovers keep things simple and effortlessly make their women cum over and over and over again.

Summary...

Dirty talk is quite possibly THE MOST POWERFUL sex technique you have at your disposal as a man, yet the sad truth is that most men will *never* talk dirty.

The reality is that **it's virtually impossible to have great sex without dirty talk**. Remember – *“silent sex is lame sex”*.

Women love dirty talk because it stimulates their minds and it's this mental stimulation that makes the sex truly rewarding for a woman.

Dirty talk is so powerful that it can INSTANTLY increase your woman's sexual pleasure and – when combined with 'physical' techniques like g-spot stimulation – can result in unbelievably powerful orgasms.

Most men don't talk dirty because they either don't know about the technique OR because they tried it unsuccessfully in the past. Whatever your current situation, commit to mastering the art of dirty talk – it'll be one of the most rewarding things you ever do. Period.

In this book you learned **5 rules for successful dirty talk**. Here's a re-cap of them – burn them into your memory and adhere to them at all times:

- i. Deliver your dirty talk with CONFIDENCE
- ii. Start out *gently* with your dirty talk
- iii. Use 'Adult' words when talking dirty
- iv. Make your dirty talk personal to your woman
- v. Keep Your dirty talk SIMPLE

I hope this book serves as a great starting point for you if you are new to the world of dirty talk and something that really 'ups your game' if you've been talking dirty for a while.

Whatever the case - put what you've read into practice...

Books are great, but it's only ACTION that produces results.
