## Sexual Fantasy #1: The 'Being Paid' Fantasy

### What is it?

As the name implies, the 'being paid' fantasy is all about paying your woman for her sexual services.

The fantasy usually takes shape by allowing your woman to assume the role of an exotic dancer (stripper) or a prostitute.

### Why do women like it?

Many women get off on this sexual fantasy because it makes them feel totally desired in a sexual way.

Think about it – if a man is willing to pay a woman for her sexual services... he must surely desire her in an extremely physical way.

And that's a very powerful feeling for a woman.

If you've ever wanted to say something like *the following* to your woman, this fantasy is the perfect time to do it:

*"You're my naughty little whore and I love to use your body to make myself feel good"*

NOTE: Don't even think about using a dirty talk line like that unless you are in relationship where there is **mutual trust** and **respect**, a **deep emotional connection** and you are already giving your woman **mind-blowing sex** (ie vaginal orgasms).

If you *are* doing those things – a dirty talk line like that can drive your woman *totally wild* if delivered correctly.

## Sexual Fantasy #2: The Teacher/Pupil Fantasy

### What is it?

In this fantasy you assume the role of the teacher and your woman takes on the role of the pupil.

The perfect way to get into this fantasy is to make her the NAUGHTY PUPIL. This gives you (as the teacher), the perfect excuse to 'discipline' her and teach her a lesson.

### Why do women like it?

You already know that women are (mostly) sexually submissive and therefore – to give your woman great sex you need to be sexually dominant.

The teacher/pupil dynamic automatically sets up those dominant/submissive roles and puts you in a position of power (which will turn her on).

There's also something very 'wrong' about a teacher getting involved with a pupil – which increases the naughtiness of this sexual fantasy.

If you then make her a 'bad' pupil (who must be disciplined) you turn up the 'naughtiness' factor of this fantasy even more. And remember – women love to *get naughty* in the bedroom.

Finally, (and this isn't to all tastes) you can make her 16 years old which makes the whole thing *totally* wrong.

The bottom line is that there are many ways to use the teacher/pupil fantasy and it has the potential to be a huge turn-on for your woman.

## **Sexual Fantasy #3: The Stranger Fantasy**

### **What is it?**

This sexual fantasy involves having sex with a complete stranger.

Women might fantasize about meeting a guy in a night club and after only a few minutes of conversation (or even just a seductive look) following him to the toilets and having sex with him.

Or it could be with a member of staff in a clothes shop, who just so happens to follow her into the changing rooms and 'get it on' with her.

### **Why do women like it?**

The stranger fantasy is exciting for a woman because of the element of the unknown.

Remember – many women are bored to tears by the sex they are getting from their men in real life. The stranger fantasy allows them to leave that boredom and over-familiarity behind and just let-go and get lost in a new and exciting sexual experience.

The stranger fantasy also allows a woman to have a very physical experience, without the emotional attachments that usually accompany sex when she is in a relationship.

A final reason why some women enjoy the 'stranger fantasy' is because it allows her to unleash her 'slutty side'. After-all, what could be more 'slutty' than having sex with a total stranger?

That point actually emphasizes why it is so important to allow your woman to unleash her 'slutty side' in the bedroom... otherwise she might go have sex with a random stranger!

## Sexual Fantasy #4: The Voyeurism Fantasy

### What is it?

Voyeurism is all about watching other people.

Voyeurism fantasies can involve women thinking about everything from naked men in the changing rooms after a football match to watching a couple have sex or watching group sex.

Many women also like the idea of watching their own man masturbate (in fact, this is one fantasy that many women get to make a 'reality').

### Why do women like it?

The idea of watching other people in sexual scenarios is a turn on for a woman because it makes her feel like she is doing something wrong.

In other words – it makes her feel naughty and dirty... Just how she wants to feel when it comes to sex.

Most of us have grown up being told that 'sex is bad' and 'porn is disgusting' and that it's wrong to watch other people doing anything sexual. In fact, anyone who admits to doing those kinds of things is often labelled a 'pervert'.

The contradiction is most people *secretly* enjoy those kinds of things behind closed doors, where the rest of society can't see them.

So watching other people have sex (and/or doing sexual things) is a major turn-on for some women.

It's dirty.

It's naughty.

We're conditioned to believe that it's 'wrong' ... and in a sexual scenario – 'dirty, naughty and wrong' are all things that make women sexually excited.

## **Sexual Fantasy #5: The Exhibitionism Fantasy**

### **What is it?**

Exhibitionism is all about putting on a show for others.

Exhibitionism fantasies might involve women fantasizing about masturbating in front of their men, or much more extreme things like going to a sex party and having sex in front of dozens of people.

As is the case with many fantasies – exhibitionism fantasies can take on many forms.

### **Why do women like it?**

If somebody or a group of people want to watch a woman have sex it is going to make her feel desired.

It's going to make her feel sexy and feminine.

It's going to make her feel sexually confident.

For those reasons, many women love exhibitionism fantasies.

Of course, putting on a sexual show for other people is considered naughty and dirty and that adds to the excitement for many women too.

## Sexual Fantasy #6: The Forced Sex/Rape Fantasy

### What is it?

Forced sex and rape fantasies are the ultimate expression of a man's sexual dominance.

You should be aware that rape is a very serious thing in 'real life' and can emotionally scar a woman for a long period of time. Women who have been unfortunate enough to be raped in 'real life' are almost definitely not going to be interested in any kind of forced sex or rape fantasies.

### Why do women like it?

The women who do 'get off' on the idea of forced sex/rape fantasies like it because of the man's dominance.

Forced sex/rape fantasies allow a woman to *get lost* in the sexual experience and just follow her man's lead. This allows them to put all the 'blame' for the sex happening on the man.

Remember – society has conditioned many people to believe that women who like sex are 'easy' or 'sluts'. Of course, such thinking is hogwash. But it exists nonetheless.

So when a woman engages in a forced sex/rape fantasy she can't be labelled as 'easy' or as being a 'slut' because she had no say in the matter. She was physically overpowered by the more physically dominant man and simply had to do as she was told. Therefore, she is relieved of any guilt that she might have experienced by having more conventional sex.

The forced sex/rape fantasy is also powerful for a woman because it makes her feel desired – this man wants her so badly that he won't stop until he gets her. For some women that's a huge turn-on, even if he resorts to forcing/raping her.

Once again – let me just reinforce the fact that forced sex/rape fantasies have to be used with serious consideration and never with women who have been raped in 'real life'.

## **Sexual Fantasy #7: The Threesome Fantasy**

### **What is it?**

The threesome fantasy involves your woman fantasizing about having sex with you and another woman *or* you and another man.

It is my experience that slightly more women tend to fantasize about two men as opposed to two women.

### **Why do women like it?**

Women enjoy threesome fantasies for many reasons.

Let's look at the 2 girls, 1 guy fantasy first...

For many women there is huge intrigue surrounding another woman's body. Many women simply fantasize about what it's like to touch another woman's body and give her sexual pleasure.

Some women also like to imagine how another woman would give her pleasure. It is my experience that a lot of women seem to think that another woman would be able to give her better oral sex and digital pleasure than her man does.

Without fail – women who think like this are women who have never been with a guy who really knows what he's doing!

However, she may still fantasize about another woman out of sheer curiosity or genuine bi-sexual urges (or because you plant the idea in her head when she is close to coming and during orgasm. And "YES" – that last point is a major hint).

A third reason why a lot of women like the 2 girl, 1 guy fantasy is because she knows her man would like to act out this fantasy in real life. Women who think like this are usually women who are with expert lovers – expert lovers who give them incredible sexual pleasure.

And because of the incredible sexual pleasure she is receiving from her man – she then wants to go out of her way to give him all that he wants... even if it involves another woman.

I had this happen with an ex-girlfriend of mine. I gave her great sex and she was not in the slightest bit a jealous person. So one day, without me knowing it – she actually set up a threesome for us, with her and another girl.

Such is the power of great sex.

Let's move on and talk about women who fantasize about having sex with 2 guys.

A much larger amount of women have this fantasy than you might expect. The reason why many women won't share this fantasy with their friends or their men is because they are worried about being labelled as 'sluts' and they are worried about hurting their man's feelings.

But what a turn-on the threesome with 2 guys fantasy is for some women.

I asked one of my friends about this and I could see her getting turned-on as she told me about it (and we were sitting in a bar having a drink at the time – so in a pretty *non-sexual* environment).

She basically said that it was the thought of having 2 guys who were totally into her.

She said that she'd love all the attention to be on her because it'd make her feel very desired and sexy.

And "YES", she said she'd like to play with 2 c\*cks!

Remember – women love to **get naughty and be dirty in the bedroom**. And for many women, there's nothing more naughty and dirty than a sexual fantasy involving her and 2 guys.
